

Organic rice syrup

clear

The mild, gluten-free rice syrup is made from high-quality rice varieties. In the process, the rice starch is broken down into the twofold sugar maltose and the single sugar glucose. Rice syrup is therefore fructose-free and is considered tolerable for a low-allergy diet in cases of fructose intolerance. It is suitable as an alternative sweetener for all hot and cold drinks and dishes, as well as a spread for bread and for the preparation of baked goods.
